

February 2019

CFO/CFO Trainee at InPhase Solutions AS

About the position

We are looking for a new colleague who will be in charge of managing the finances at InPhase Solutions, as well as working with project management, business administration, sales, HR, HSE, PR and legal issues.

You will prepare advice and information to the company and participate in key decisions as a member of the executive management team.

The CFO reports directly to the CEO as well as to the board of directors.

We see our colleagues as the company's greatest assets, and this attitude permeates every aspect of our business. All employees are offered the opportunity to become shareholders, a family friendly work environment with flexible working hours, and a good pension offering. Whether or not you choose to own shares, you will get the opportunity to shape the future direction of the company.

Responsibilities and duties

As the CFO of InPhase Solutions you will have the following responsibilities and duties:

- Drive the company's financial planning
- Ensure that cash flow is appropriate for the organization's operations
- Handle billing, POs and contracts
- Project management
- Manage customer relationships and follow up sales leads
- Write applications and provide reporting to NFR/Innovation Norway
- PR
- HR

Qualifications

- Educational level:
 - MSc, preferably from Industrial Economics and Technology Management or similar.
- Experience:
 - Preferably 1–2 years, but students finishing their MSc this spring are also encouraged to apply

- Specific skills:
 - Norwegian and English are working languages at the company, and the CFO is required to be highly proficient in both, written and spoken.
 - Proficient in the use of MS Office
 - An analytical mind, comfortable with numbers
 - Organizational skills
 - Experience within entrepreneurship and innovation is desired
 - Programming experience (e.g. Python, Matlab or C++) is desired
- Personal characteristics:
 - Good communication and people skills
 - Eager to learn

Practical information

Your application should include a CV, a letter of application, your university transcript, and letters of recommendation (if any). Please e-mail it to office@inphase.no.

Applications are accepted on a rolling basis.

If you have any questions please do not hesitate to contact Jochen Rau at jochen.rau@inphase.no or (+47) 410 78 759.

You can also visit our homepage, <http://www.inphase.no>, for more information.

We look forward to receiving your application!

About InPhase Solutions

InPhase Solutions AS is a technology development and consulting company that provides ultrasound and signal processing solutions for oil & gas, medical, and industrial technologies.

Our team is highly competent, holding MSc or PhD degrees, with extensive experience from academia and industry. We are a strong multidisciplinary team that combines an academic/analytical approach with industrial and business oriented thinking in order to develop new cutting edge technology and improve existing products.

Our expertise ranges from general acoustics, signal modelling and analysis/processing, algorithm development, image processing, transducer design and manufacturing, Doppler methods and hardware electronics to system evaluation, technology implementation and complete system design and development.

The company headquarters are located in Trondheim, Norway. The city is internationally renowned for its vibrant ultrasound research and technology environment.
